## **JET WORKS AIR CENTER TO**

## **EXHIBIT AT MEBA NEXT MONTH**

## **COMPANY'S FIRST INTERNATIONAL**

## **EXHIBITION MARKS STRONG GROWTH**

## **IN ACTIVITY**

**NOVEMBER 10, 2010 DENTON, TX...**Jet Works Air Center (JWAC), a rapidly growing large aircraft completion and interior refurbish company headquartered in Denton, Tx, just northwest of DFW Airport, announced today that it will be exhibiting at its first MEBA show in Dubai next month (Booth E222)

This year Jet Works has delivered a Boeing 737-300 and three Boeing BBJs to owners from markets in the Middle East and Indonesia after completing extensive interior upgrades and refurbishment.

In addition, last month Jet Works announced it has been awarded a multi-million dollar contract to design and install a 24 passenger VIP interior on a privately owned MD-87.

Trey Bryson, President of JWAC, stated that the new MD-87 will feature a luxurious and contemporary cabin with a state-of-the-art in flight cabin entertainment system.

Mr. Bryson will be joined in hosting the JWAC booth by Marc Johnson, an industry veteran in completion, refurbishment monitoring and project management who recently joined Jet Works as Director of Sales Large Cabin Completions. They will have presentations showing JWAC's extensive capabilities and images of recently completed BBJ interior work.

Operating out of approximately 100,000 square feet of hangar space, in addition to large cabin interiors, Jet Works offers heavy maintenance service, avionics and paint capabilities for 97 models of Gulfstream, Challenger, Lear, and Citation business jets.

Jet Works will co-exhibit with its sister company, Business Air International, a global dealer in private jet sales and acquisitions.
